

School of Computing and Informatics

Research Day 2017

University of Louisiana at Lafayette

Lafayette, Louisiana

Proudly announces the guest speaker

Mr. Suraj Subramanian

Senior Technical Staff Member

Chief Software Architect , CMS

IBM Corporation

who will give a presentation entitled

Cloud Computing – Trends and Challenges

Abstract: A brief introduction on Cloud Computing and the evolution of the Cloud. The presentation will focus on how the cloud platform has evolved starting from basic managed hosting to running enterprise workloads on the cloud. As such, it details basic cloud services, terminology, as well as discusses how to build a Managed Cloud Services Platform. The presentation will, in addition, highlight a key Reference Architecture, as an example.
